Compliance and Risk Management Solutions

**“THERE IS NO SUBSTITUTE FOR EXPERIENCE”**

**Today’s Non Profit Entities are facing disclosure and compliance requirements being mandated by Federal, State and Foundations.**

**The current non-profit environment combines rapidly evolving compliance requirements, new standards for legal and financial disclosures, and changing economic and political climates to create a more complex environment than in the past.**

**This reality further taxes resources that are already stretched to capacity and distracts from your core mission.**

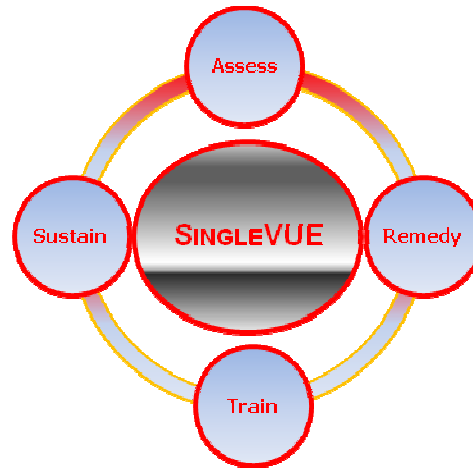

**Visage Solutions utilizes its proprietary and proven, process methodology, **SingleVUE™**, to implement tailored compliance and risk management solutions. This approach emphasizes training, templates and support for your team, which minimizes the cost while increasing the quality of your compliance effort.**
